

EXAMPLE OF CASE

WATERPROOFING AND CORROSION PROTECTION

Customer : BIOSPRINGER

Prime contractor : LANG TP

Company : KEMICA

Date of works : JANUARY 2007

Works :

- Waterproofing and corrosion protection of canals, concrete tanks storing corrosive liquids :
 - . HNO₃ 53%
 - . KOH 50%
 - . NaOH 50%
 - . H₃PO₄ 75%

Specification :

- Grinding of concrete
- Concrete primer P 201
- application of SOUPLETHANE 5 COR : thickness 3 mm, with a glass fabric reinforcement in the upstands.

Technical interest :

- waterproofing coating, able to bridge cracks in the substrate
- system resistant to strong chemicals
