

SECURING AGAINST THEFT OF MANHOLES COVERS

OBTURATION OF ALVEOLS AND ANTI-LOCKING
ANTI - REPTATION OF CABLES

Sealing of manholes lids or covers with SOUPLETHANE UR 5 PUTTY* resin

**Technique validated by France TELECOM / ORANGE*

THE STRONG BONDING of SOUPLETHANE UR 5 PUTTY resin
in the lid seal guarantees the inviolability of the cover
(an effort of 5 to 10 tons should be done to unseal the cover)

- **QUICK APPLICATION** with a gun and 1 bi-component cartridge of SOUPLETHANE UR 5 PUTTY resin

Road sealing

*Eg consumption : application with 1 cartridge :
width : 1 cm - depth : 0.5 cm = 8 linear meters*

- **QUICK SEALING**
- Implementation by all times
- Complete absence of withdrawal.

- **GUARANTEES THE TIGHTNESS OF
THE LID**, avoiding any infiltration in visiting rooms.
