

## EDITO

We are pleased to announce that we obtained the **Technical Application Document (DTA) for the liquid waterproofing of roofs "SOUPLETHANE 5 ATE"** ! Already holder of the European Technical Evaluation ETE 13/0156, we are strengthened in our know-how with this new Technical Assessment N ° 5.2 / 18-2615\_V1, published on January 25, 2019.

Designed to ensure the waterproofing of uninsulated roofs, or insulated in the case of renovation, on masonry bearing element, the SOUPLETHANE 5 ATE is installed on concrete or metal roofs. **It is also suitable on wooden roofs.**

Adherent to the substrate, it is accessible to pedestrians without the need for mechanical protection, massive continuous substrate (masonry, concrete) in new or renovation.

**This Technical Assessment has been formulated for use in France and in DROM** (Guadeloupe - Martinique - Reunion - Mayotte).

In addition, this system was the subject of a **European reaction to fire classification report class Broof (t1) N ° RA19-0045** by the Safety, Structures and Fire Department of CSTB on March 8, 2019. Test results obtained on a substrate of calcium silicate panels apply to any non-combustible continuous substrate with a minimum thickness of 10mm.

**René MASSARD**

## PRODUCT OF THE MONTH : SOUPLETHANE 5

Two-component polyurea-urethane resin for liquid waterproofing, continuous flooring and anticorrosion protection of civil engineering works (ex. bridges, tunnels), industrial sites (ex. pharma/cosmetic) and maritime equipment (ex. ship flooring).

ADVANTAGES	
Good bond strength : <b>4 MPa on concrete</b>	<b>Solvent free, odourless</b>
Resistance to cracking of concrete : <b>3 mm</b>	<b>Bisphenol A free</b>
Resistance to thermal shocks and to hydrolysis : <b>90°C</b>	Quick commissioning
Resistance to compression : <b>&gt; 110 MPa</b>	Easy application
Chemical resistant / no bacteria development	No chalking
Fire resistance Bfl-S1	

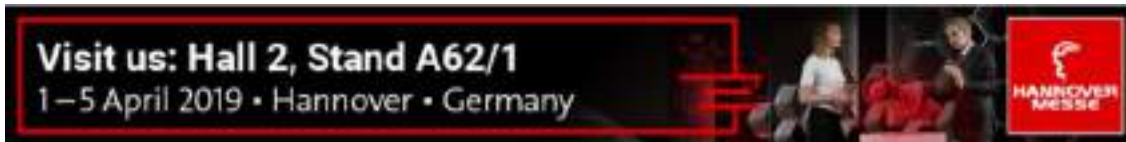

**KEMISTATIC WILL BE PRESENT AT THE**

**HANNOVER MESSE**

[Subscribe](#)[Past Issues](#)[Translate ▼](#)

From the 1st to the 5th of April 2019, we will be present at the Hannover Messe in Germany, one of the world's largest trade fairs, in order to present Kemistatic !

All welcome to meet us !
